**Attachments:** MEDICAL ASSOCIATIONS\_CME-CPD\_.pdf

**Importance:** High

Hello,

Here are the answers from Swedish Medical Association:

1. Which authority provides with the approval for the organisation of a scientific CME/CPD event, in your country?  
Sweden does not have mandatory CME system so we do not have an authority for approval.
2. Which is the competent authority for the review and accreditation of CME/CPD events? For international events taking place in Sweden, it is EACCME.

Kind regards,

---
